Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in **Next.js, React.js, Node.js, Express.js, and MongoDB**. Experienced in **REST APIs, authentication, real-time applications, payment integrations, and AI-powered web applications**.

EDUCATION

Chandigarh University

Master of Computer Applications (MCA)

Aug 2025 – June 2027

Punjab, India

Babu Banarasi Das University

Bachelor of Computer Applications (BCA)

Aug 2022 – June 2025

Lucknow, India

EXPERIENCE

Full Stack Developer Intern – MobiYantra Private Limited

July 2026 – September 2026

Certificate

- Developed full-stack web applications using **Next.js, React.js, Node.js, Express.js, and MongoDB**.
- Designed and integrated **RESTful APIs** for authentication, user management, document management, and application workflows.
- Implemented **NextAuth.js authentication and role-based access control** with secure session management.
- Designed MongoDB schemas and implemented CRUD operations using **Mongoose**; integrated Cloudinary, Socket.IO, Nodemailer, MSG91, and external APIs.

Full Stack Developer Intern – Softpro India Computer Technologies (P) Ltd.

Feb 2025 – May 2025

Certificate

- Completed hands-on Full Stack Development training and internship covering frontend, backend, databases, and REST API development.
- Developed responsive web applications using **React.js, Node.js, Express.js, and MongoDB** with reusable components.
- Implemented **JWT authentication, protected routes, authorization, and secure REST APIs**.
- Built and tested APIs using **Postman**; managed source code and collaborative development using Git and GitHub.

PROJECTS

ShopMind – Multi-Vendor E-Commerce Platform

Next.js, MERN, Socket.IO, Stripe

GitHub — Live

- Built a full-stack multi-vendor e-commerce platform with **Customer, Vendor, and Admin** role-based dashboards and workflows.
- Developed product, cart, inventory, order, review, and vendor order management using **Next.js, Node.js, Express.js, and MongoDB**.
- Integrated **Stripe Checkout, payment verification, webhooks, and Cash on Delivery** for secure payment processing.
- Implemented **NextAuth.js Google OAuth/credentials authentication**, Socket.IO real-time order updates, and Cloudinary image management.

Ann Daan – Real-Time Food Donation Platform

Next.js, MERN, Socket.IO, OpenRouter AI

GitHub — Live

- Developed a real-time food donation platform connecting **organizers, restaurants, donors, and NGOs** to reduce food wastage.
- Implemented **role-based authentication and authorization** with separate workflows for different stakeholders.
- Built real-time notifications, communication, and status updates using **Socket.IO**; integrated Leaflet for location-based coordination.
- Integrated **OpenRouter AI, Twilio, and Nodemailer** for intelligent assistance, verification, and communication workflows.

AI-Powered Exam Notes Generator

Next.js, React, Redux Toolkit, OpenRouter AI

GitHub — Live

- Built an AI-powered platform that generates structured and contextual exam notes using **OpenRouter AI**.
- Implemented **note history, credit management, PDF export, and AI-powered note generation** workflows.
- Integrated **Razorpay** with payment verification for secure credit-based transactions.
- Developed responsive UI using **Next.js, Tailwind CSS, and Redux Toolkit** for efficient state management.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3 **Frontend:** React.js, Next.js, Tailwind CSS, Redux Toolkit

Backend: Node.js, Express.js, REST APIs **Database:** MongoDB, Mongoose

Authentication: JWT, NextAuth.js, Google OAuth, Role-Based Access Control

Payments & Services: Stripe, Razorpay, Cloudinary, Twilio, Nodemailer, MSG91

Real-Time & Maps: Socket.IO, Leaflet, React-Leaflet

AI & Tools: OpenRouter API, Prompt Engineering, Git, GitHub, VS Code, Postman
