PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in **Next.js, React.js, Node.js, Express.js, and MongoDB**. Experienced in **REST APIs, authentication, real-time applications, payment integrations, and AI-powered web applications**.

EDUCATION

Chandigarh University <i>Master of Computer Applications (MCA)</i>	Aug 2025 – June 2027 Punjab, India
Babu Banarasi Das University <i>Bachelor of Computer Applications (BCA)</i>	Aug 2022 – June 2025 Lucknow, India

EXPERIENCE

Full Stack Developer Intern – MobiYantra Private Limited <i>Certificate</i>	July 2026 – September 2026
- Developed full-stack web applications using Next.js, React.js, Node.js, Express.js, and MongoDB. - Designed and integrated RESTful APIs for authentication, user management, document management, and application workflows. - Implemented NextAuth.js authentication and role-based access control with secure session management. - Designed MongoDB schemas and implemented CRUD operations using Mongoose; integrated Cloudinary, Socket.IO, Nodemailer, MSG91, and external APIs.	
Full Stack Developer Intern – Softpro India Computer Technologies (P) Ltd. <i>Certificate</i>	Feb 2025 – May 2025
- Completed hands-on Full Stack Development training and internship covering frontend, backend, databases, and REST API development. - Developed responsive web applications using React.js, Node.js, Express.js, and MongoDB with reusable components. - Implemented JWT authentication, protected routes, authorization, and secure REST APIs. - Built and tested APIs using Postman; managed source code and collaborative development using Git and GitHub.	

PROJECTS

ShopMind – Multi-Vendor E-Commerce Platform GitHub — Live	<i>Next.js, MERN, Socket.IO, Stripe</i>
- Built a full-stack multi-vendor e-commerce platform with Customer, Vendor, and Admin role-based dashboards and workflows. - Developed product, cart, inventory, order, review, and vendor order management using Next.js, Node.js, Express.js, and MongoDB. - Integrated Stripe Checkout, payment verification, webhooks, and Cash on Delivery for secure payment processing. - Implemented NextAuth.js Google OAuth/credentials authentication, Socket.IO real-time order updates, and Cloudinary image management.	
Ann Daan – Real-Time Food Donation Platform GitHub — Live	<i>Next.js, MERN, Socket.IO, OpenRouter AI</i>
- Developed a real-time food donation platform connecting organizers, restaurants, donors, and NGOs to reduce food wastage. - Implemented role-based authentication and authorization with separate workflows for different stakeholders. - Built real-time notifications, communication, and status updates using Socket.IO; integrated Leaflet for location-based coordination. - Integrated OpenRouter AI, Twilio, and Nodemailer for intelligent assistance, verification, and communication workflows.	
AI-Powered Exam Notes Generator GitHub — Live	<i>Next.js, React, Redux Toolkit, OpenRouter AI</i>
- Built an AI-powered platform that generates structured and contextual exam notes using OpenRouter AI. - Implemented note history, credit management, PDF export, and AI-powered note generation workflows. - Integrated Razorpay with payment verification for secure credit-based transactions. - Developed responsive UI using Next.js, Tailwind CSS, and Redux Toolkit for efficient state management.	

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3 **Frontend:** React.js, Next.js, Tailwind CSS, Redux Toolkit
Backend: Node.js, Express.js, REST APIs **Database:** MongoDB, Mongoose
Authentication: JWT, NextAuth.js, Google OAuth, Role-Based Access Control
Payments & Services: Stripe, Razorpay, Cloudinary, Twilio, Nodemailer, MSG91
Real-Time & Maps: Socket.IO, Leaflet, React-Leaflet
AI & Tools: OpenRouter API, Prompt Engineering, Git, GitHub, VS Code, Postman
